STATINTL

GLC:

[redacted] of OER called and would like to talk with you when you return. Apparently the suspense date on the Joint Economic Committee volume on the Soviet Union has been set back from 1 September to October 15. [redacted] feels that the publication date should not have been allowed to slip; that this is too important a volume and he is interested in finding out from [redacted] (if you will agree to do it) who the requestor was that caused the suspense date to be set back six weeks. [redacted] would appreciate a call from you on Monday.
